## Patient Instructions: Preparing for Your Consultation / First Visit

### What to Bring to Your Appointment

To ensure your visit runs smoothly and we can provide you with the best possible care, please bring the following items to your appointment:

- **Referral Slip:** If your general dentist, orthodontist, or physician referred you to our office, please bring the referral form they provided.
- **X-Rays / CT Scans:** If you were given copies of any recent X-rays or CT scans (digital or printed), please bring them with you. These images assist our doctors in accurately planning your treatment.
- **Medication List:** Bring a complete, up-to-date list of all medications you are currently taking, including the name, dosage, and frequency of each.
- **Insurance Cards:** Please bring your **medical and/or dental insurance cards** so our team can verify your benefits and assist you with any applicable coverage.
- **Driver's License or Photo Identification:** A valid form of identification is required for all patients at check-in.
- **Parent or Legal Guardian:** Patients **under the age of 18** must be accompanied by a parent or legal guardian for the consultation visit.

If you have any questions about what to bring or need assistance before your appointment, please don't hesitate to contact our office.
